

Good Evening,

I am writing this email in support of State funding for the agriscience education programs throughout the state, specifically the agriscience program at Suffield High School. It is such a great program offered to students. Our kids are learning so much about plants, farming, (where and how our food is grown), working with animals and livestock, working together on projects and so much more. They are getting hands on experience which is so important for their future and the future of our State. Please let me know if you would like additional information. I can be reached at 860-604-5366.

Have a
Linda Brannan
